## Environmental Policy

Grabloader Ltd is committed to minimising any actions that may be detrimental to our environment wherever practicable.

We continually strive to keep up to date with new and innovative products that will aid the improvement of our environment and our services. We as a business will endeavour to realise our economic growth but not at the expense of our environment.

Grabloader Ltd will continue to build a business, offering wherever possible, products that have a positive effect on the environment by reducing waste, unnecessary pollution and the avoidable use of the worlds resources. We aim to achieve this by encouraging others to use re-cycled materials thus making optimum use of existing resources

For and on behalf of  
Grabloader Ltd
